

## **B-31 BOARD POLICY DEVELOPMENT**

The Board accepts the definition of policy set forth by the National School Boards Association: Policies are Principles adopted by the Board of School Trustees to chart a course of action. They tell what is wanted; they may include why and how much. Policies should be broad enough to indicate a line of action to be followed by the administration in meeting a number of problems; narrow enough to give clear guidance. Policies are guides for action by the administration which sets the rules and regulations to provide specific directions to the school district personnel.
