

## **G-30 PROFESSIONAL STAFF TIME SCHEDULES**

The Board of School Trustees recognizes that program development, professional growth activities, the care of school property and equipment, parent conferences, and the offering of special help to individual students and groups of students may require that time be spent beyond the minimum time specified in the current Master Agreement with Plainfield Professional Educators Association.

Attendance of teachers at parent-teacher meetings, open houses, plays, concerts, athletic events, etc. shall be at the option of the individual teacher; although such activities are recognized as a part of the teacher's professional responsibilities.

On a professional workday when the students are not in school, the teacher's work day will be the same hours as if the students were present or as altered by administrative directive.
