

G-35 PROFESSIONAL STAFF PROMOTIONS

All promotions within the professional staff of the Plainfield Community School Corporation will be considered under the same policy as that governing original assignments. The superintendent of schools is responsible for recommending a candidate for a vacant position to the Board which will approve or disapprove the recommendation. In no case, however, will the Board promote personnel without the recommendation of the superintendent.

All openings for administrative positions and for positions paying salary differentials shall be adequately posted in each school and the Central Administrative Office in this corporation.

Formal application must be made in accordance with the instructions contained in the posted notice. Other applicants shall be given the same consideration as current employees of this corporation.

Vacancies may be filled at any time following the posting, but not in conflict with the negotiated agreement between the Board of School Trustees and the Plainfield Professional Educators Association.
