

H-3 BOARD NEGOTIATING AGENTS

The Board designates the superintendent or his or her designee as its bargaining agent for purposes of negotiating with the Plainfield Professional Educators Association. The Superintendent or designee will negotiate an agreement within guidelines and parameters established by the Board. When agreement is reached by the two negotiating committees, it shall be reduced to writing and submitted to the teachers association and to the Board of School Trustees for final ratification August 1 of the year the contract is negotiated.

Some circumstances may suggest the need for additional professional expertise. In such cases, the Board of School Trustees may opt to employ a professional negotiator or consultant to assist the superintendent.
