

## **I-16 STUDENT ORGANIZATIONS**

Student organizations shall generally be encouraged when they meet the simple criteria of contributing to learning rather than detracting from it. Such organizations shall be operated within the framework of the law, Board policy, administrative rules, and the parameters of the learning program. When such organizations are truly contributive, their establishment and operation shall be facilitated in reasonable ways by district staff and through utilization of district resources.

The superintendent or his or her designee shall develop general guidelines for student organizations. Among other provisions, such guidelines shall require the assignment of at least one faculty advisor to each student organization.

This policy applies to on-campus organizations only. It is not intended to restrict the organization of students into groups which function apart from the school.
