

I-29 INSTRUCTIONAL MATERIALS

The Plainfield Community School Corporation Board of School Trustees is legally responsible for all matters relating to the operation of the Plainfield Schools.

The Board recognizes that the selection of school curriculum materials is the primary responsibility of classroom teachers and school administrators working within policies formulated by legally established local and state school authorities.

The Board supports the fullest possible public participation in the policy making of local and state school authorities, including public comments on school curriculum and materials, through regular public channels such as open meetings, hearings or written comments. The Board resists forced changes or withdrawals of school curriculum or materials during the school year as a response to public or private pressure when such pressure is exerted outside the legally established public policy making forums.

Selection of materials involves many people; principals, teachers, supervisors, and media specialists. The responsibility for coordinating the selection of instructional materials and making the recommendation for purchase rests with the building principal or his or her designee.
