

## **J-9 ASSIGNMENTS OF STUDENTS TO SCHOOLS AND CLASSES**

Pupils entering the elementary schools in the Plainfield Community School Corporation will be assigned to the building which serves their attendance area. An exception would be an assignment of a new student after the school year begins when enrollment in a particular school would create a class-size problem. The boundaries of these attendance areas may be adjusted as stated in policy JC, but it is anticipated that a student will complete his or her elementary grades in the same school, though reassignment may be made when it is deemed in the student's best interests.

The assignment of pupils to classes and teachers shall be made by the principal. Grade placement shall be the responsibility of the principal and shall be based on general achievement with consideration being given to the mental, physical, emotional, and social maturity of the student.

Special Education classes and school assignments shall be made in accordance with the student's Individual Educational Plan (IEP).
